AFTER THE CHALLENGE

UNIT INAGURATION

It was our long time dream to have an NCC unit in the college and we started our try long before. Its only this year we could succeed. Malabar is the land of defence and most of the native of our district join armed forces immediately after their 12 th standard. Even though we have many soldier our district lacks officers in number. With an NCC unit in our college we can motivate youngsters to join defence forces as officers. Also we can avail the opportunity of NCC special entry to the Engineering graduates. Very less Engineering colleges in kerala is having NCC unit. We are now proud to be one among that rare case.

NCC 'C' CERTIFICATE

This year we had two cadets appeared for C certificate exam. The exam was conducted on 18th and 19th of February from Govt Poly Technique College Kannur.

Candidates who have the NCC B certificate can appear for the NCC C certification exam during their 1st year of college itself or after successfully completing their 10+2 or equivalent.

It can be taken in the 3rd year of training, in the 3rd year of degree course. Those who possess a Certificate - B can

take it in the first year after their +2, and in the 1st year of their degree.

The cadet must have

attended two Annual Training Camps or one Annual Training Camp and one of the

ALL INDIA TREKKING CAMP

Our cadet Aavani Raj attended- Her Experience

All India TN Trekking expedition commenced on 27 april 2023 and concluded on 4 May 2023. 102 Cadets from all over Kerala represented Kerala Lakshadweep Directorate. I was one among those 102 cadets .It was an honour for me to represent my Unit .The camp is conducted in 2 phases .

It was a wonderful experience for as it was my first National camp .The trekking expedition took place in 3 different places that is Nanjanad ,ketty and ooty.On 26th of april I started my journey with entire Calicut group compressing of 27 cadets and 1 Ano.Our forst destination was Nanjanad, we reached there on 27 morning.In there we stayed at Eklavya tribal Residencial School.The entire Kerala Lakshadweep directorate was present there.I got to interact with a lot of cadets from different parts of Kerala from there. In there we trekk till tribal village and also visited tribal museum present at tribal research centre ,from there we were able to understand about various tribal people present in Ooty.It was very informative for all the cadets.Later we trekked for abt 16 kms to our next destination that is CSI engineering college at ketty ,it was the base camp.At first walking such long distance was a bit hectic but it was all eorth it because we were able to see a lot of places where nature was at its utmost Beauty.In the base camp we were able to interact more with various army officers,pa staffs etc. From there we visited madras regimental museum ,sims park ,reserved pine forests,various dams ,etc.One of the places that i would never forget is madras regimental museum.It is a place where everyone who is an army aspirant should visit once in his life.From there one could definitely understand how much a soldier is sacrificing for his country and also we will get more knowledge and information about madras regiment and its thambis(army officers in madras regiment).This place really depicts the valour,courage and sacrifices of the indian army officers.As im from an armmy ncc unit it truly inspired me.There were a lot of quotes written in there but a few of them will be imbedded in my heart forever and one of them says,"Being a soilder is not just courage,its sacrificing oneself for something greater than oneself."This simple sentence can prove the sacrifice and courage of an soilder and his love for his country.From the base camp i alos got an opportunity to interact with Commodore Atul Kumar Rastogi who is the DDG of NCC Directorate of tamilnadu, Puducherry and Andaman Nicobar.He shared his life experiences and i also got the opportunity to clear my doubts from him .Later we trekked for abt 11 kms to our 3rd and final destination that is ooty.In there we stayed at CSI higher school .From there we visited botonical garden,rose gardens ,etc ..I was not able to participate in those trekks as i was part of the cultural competition.On the last day of the camp, cultural competition took place as part of the closing ceremony and i Got 2 gold medals for the best singer qnd best anchor category.It was really a overwhelming and proud movement for me to receive such prizes from the commander officers.later we had a wonderful camp fire where we enjoyed a lot.

This trekking camp taught me a lot of things like how to adapt to various circumstances,interact with people from different cultures, regions,etc.It was also helped me to improve myself physically mentally and also emotionally.The 8 days i spent at this camp was worth every second which i will never forget.Especially the seniors of who taught me what it takes to be a leader and cadets and ANOs who corrected my mistakes.All the cadets ,ANOs , officer's,pa staffs everyone who was present there created a huge impact in my life which will be there in my heart forever.This camp has given me a completely different experience and i thank NCC for giving me an opportunity to take part in this camps.This will forever be an incredible and mesmerizing journey of my life .

CATC AT COET

Combined Annual Training Camp was organised at our college from 10th to 19th May 2023. It was second time we hosting a Camp. About 600 cadets from different schools and colleges attended the camp. It was a great experience for the cadets to have camp on a hill top. We could even arrange a trekking in this camp

TSC SELECTION
